ALON DE GROOT AND HANNAH BERNICK-GREENBERG: Excavations at the City of David 1978-1985 Directed by Yigal Shiloh, Volume VIIB: Area E: The Finds

This is the companion volume to Qedem 53, devoted to the finds of the excavations in Area E. Chapters are devoted to detailed study of the pottery assemblages of the Hellenistic period, Persian period, Iron Age IIA and IIB, Middle Bronze Age, and Early Bronze Age and earlier periods. Each of these chapters is accompanied by photographs of the pottery, typological figures and figures showing the assemblages of key loci. Other chapters are devoted to reports on the human remains from the Hellenistic cemetery; scarabs, scaraboids, other stamp seals and seal impressions; and a stone cosmetic palette. Further chapters report in summary fashion on Late Bronze Age pottery, miscellaneous pottery finds, small finds and varia, and metal artifacts.
